

BANTELMANN
TRANSLATE
TRADITION OF HIGHEST QUALITY

TRANSLATION SERVICES
FOR THE MEDICAL AND
LIFE-SCIENCE INDUSTRY

Overview

- ▶ Bantelmann Translate is a reliable and competent language service provider (LSP) for **technical, medical, legal and commercial translations** with high quality standards.
- ▶ We are **ISO 9001:2015 and ISO 17100 certified**. In order to ensure the long-term quality of our work and to continuously improve our services, we undergo yearly audits confirming our compliance with the above ISO standards.
- ▶ The company is based in Düsseldorf, with employees working remotely from multiple locations within the EU.
- ▶ We offer translations from English, German and Italian into more than 20 languages.
- ▶ For more than 10 years, we have been supporting **pharmaceutical companies and CROs** with translations in the fields of clinical research, regulatory affairs, medical marketing and medical devices.

Services we offer

- ▶ **Translation:** our team of project managers and in-house linguists supports you with your projects through the entire translation, revision and quality control process.
- ▶ **Back translation:** translation of a previously translated text back into the original language by a translator who is not familiar with the source text. The back-translation is then compared with the source document by an independent reviewer. This process aims to ensure the quality of the initial translation.
- ▶ **DTP:** desktop publishing to produce a translation within a given layout to maintain the original format.
- ▶ **Language quality assurance:** a thorough analysis by a specialist linguist to obtain an accurate indication of the translation quality level. We consider this to be an essential step of our translation work. We analyze the following aspects: completeness, terminology, style, grammar, spelling and punctuation to make sure the translation meets the highest quality requirements.
- ▶ **Multilingual projects:** coordination of major projects with respect to deadlines, workflow management, assignment of work and integration of changes.
- ▶ **Production of terminology databases:** we maintain a comprehensive terminology database, which is constantly being updated and expanded. This ensures that the medical and specialized terminology of our customers remains consistent throughout all documents.

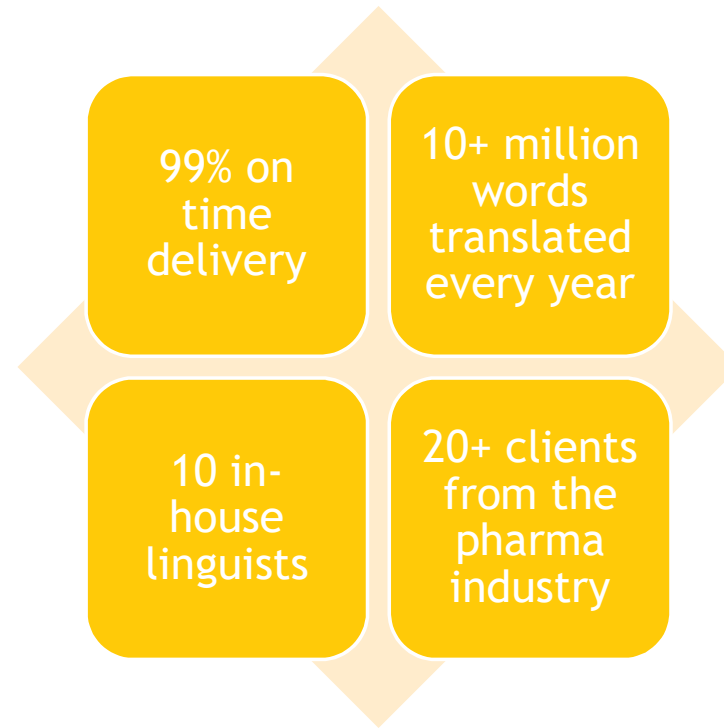

Our experience

- ▶ **Clinical trials** - Protocol Synopses, Informed Consent Forms, Patient Diaries, Patient Information Sheets and Leaflets, Patient Reported Outcomes, Scales, QoL questionnaires, Regulatory Affairs
- ▶ **Pharmaceutical** - Pharmacological Reports, Labels and Package Leaflets, Drug Manufacturing Procedures, Package inserts
- ▶ **Medical devices** - Instructions For Use, Devices Manuals
- ▶ **Research papers and academic articles**

Our team of in-house linguists in the IT<>EN and IT<>DE combinations

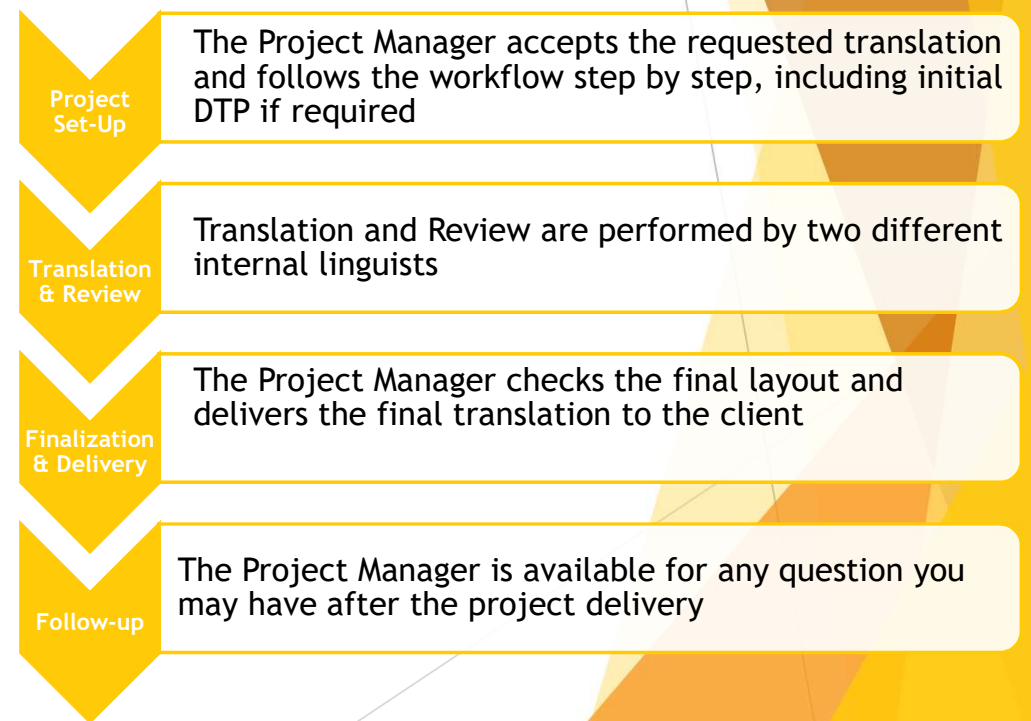

- ▶ Thanks to a dedicated team of in-house linguists, we are able to handle **large volumes of translations from English and German into Italian for Italy and Switzerland and vice versa** in an even faster, more efficient and cost-effective manner.
- ▶ Your benefits:
 - **reduced costs and quicker turn-around times** thanks to the immediate availability of our in-house translators
 - **direct and competent contact persons** to answer your questions during and after the translation process

Performance indicators

Project Management

- ▶ We guarantee the utmost professionalism and **confidentiality**. With us, your projects are followed step-by-step according to your demands, until their final completion.
- ▶ In order to ensure the utmost quality and be compliant with the **ISO standards**, we rely on the latest industry software for organizing the translation flow and ensuring full consistency throughout your documents.
